## RFID Event Management Services.

### Module 8 of 10

Cashless (Stand alone and Networked) Consider that at Cash only events an average level of shrinkage is 30%. That is right, 30%. Consider savings from not having floats, cash management costs, banking costs etc ready money starts to look expensive. We can provide two options, using RFID Wristbands or ID Cards.

1/ Networked so that all bar and counter scanners are connected to the central database.

2/ Standalone whereby the amounts are deducted off the RFID Wristbands at the till. Both options require attendees to pay for the credit (bank card or cash) assigned to each wristband. Top up and refunds can be implemented at kiosks around the event.

Our Cashless solutions are tried and tested with complete turnkey solutions available. The video is a brief case study for a Cashless Standalone Solution.

Our Products and Services are competitively priced backed by a friendly, competent and experienced team ready to guide and support our Client's requirements.
